XT60

XT60 is a professional automotive diagnostic tool designed to help users quickly identify vehicle issues, perform reliable system diagnostics, and complete routine maintenance operations. It delivers stable performance and convenient operation, supported by lifetime free software updates and a one-year warranty for long-term peace of mind.

STABLE & RELIABLE HARDWARE CONFIGURATION

5-inch Android 10.0 tablet with quad-core 1.5GHz processor, 2+32G large storage, 5000mAh battery, wide 9-32V vehicle voltage compatibility.

PRACTICAL 17 SPECIAL FUNCTIONS

Integrates multiple commonly used maintenance functions: TPMS Reset, DPF Regeneration, BMS Reset, EPB, Oil Reset, ABS Bleeding, etc.

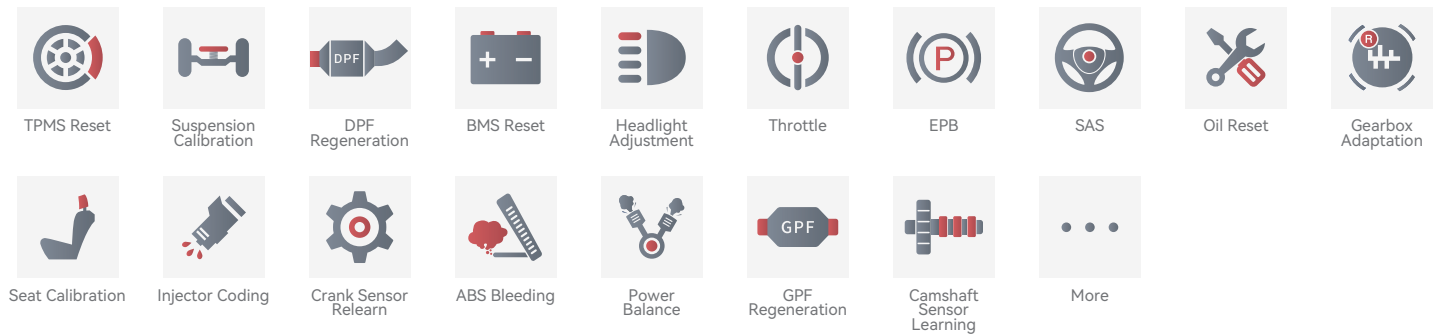

COMPLETE OBD DIAGNOSTIC FUNCTIONS

Supports auto VIN, reading ECU info, reading/clearing codes, live data, freeze frame and full OBD functions for daily vehicle diagnosis.

COST-EFFECTIVE AFTER-SALES SERVICE

Lifetime free update, 1-year warranty, multi-channel support and one-on-one exclusive engineer service for distributors.
